SUMMARY

Motivated Electronics and Communication Engineering graduate with a strong interest in software development, UI/UX, and data-driven problem-solving. Experienced through internships in full-stack development and customer-facing roles, combining technical expertise (Python, Django, Angular, MySQL) with professional communication skills. Eager to grow in a technology-driven environment and contribute to impactful projects.

WORK EXPERIENCE

Customer Associate – Sutherland Global

Oct 2024 – Jan 2025

- Handled client communications and inquiries, maintaining a 95% satisfaction rating.
 - Applied problem-solving and documentation skills to resolve customer issues efficiently.
 - Gained strong experience in professional communication, CRM tools, and process documentation.
-

CERTIFICATIONS & TRAINING

Python Basics Certification

- Successfully completed a three-month training program concentrating on Python programming, data structures. Engaged in projects pertaining to data manipulation and automation.

Susthira Vinjan Internship Program

- Successfully completed a structured internship focused on energy conservation and data collection methodologies.
- Worked on real-world projects involving the analysis of energy usage patterns, efficient resource management, and sustainable technology practices.

Industrial Training – Keltron (Kerala State Electronics Development Corporation) Completed certified training in hardware and system assembly as part of industrial exposure.

- Gained hands-on experience in assembling, testing, and troubleshooting computer systems and electronic components.
- Learned industry practices related to hardware diagnostics, component integration, and system configuration.

Corporate Readiness & Professionalism Program

- Participated in a three-day workshop focused on workplace etiquette, effective business communication, and understanding corporate culture

Full Stack Development – Quest Innovations

- Worked with tools such as JavaScript, jQuery, Bootstrap, Django and Angular to build and enhance user interfaces.
- Collaborated with designers using Figma to translate UI/UX designs into functional code. Gained practical experience in optimizing web performance, ensuring design consistency, and participating in Agile development processes.

EDUCATION

Python Full Stack Development |Quest Innovative Solutions •

March 2025-present

B.Tech in Electronics and Communication Engineering | Vidya Academy of Science and Technology

December 2020 - August 2024

Grade 12 | higher secondary school peringode •

May 2018 -March 2020

SKILLS

Technical Skills:

- Programming: Python, JavaScript
- Frameworks/Tools: Django, Angular, jQuery, Bootstrap, Flask, Node.js, VS Code
- Design Tools: Figma, Webflow, LaTeX, Canva, Photoshop ,Adobe creative cloud
- Databases: MySQL ,SQLite
- Productivity Tools: Excel, PowerPoint, Word
- Version control: Git, Github

Soft Skills:

- Professional Communication
- Team Collaboration
- Creative Problem-Solving
- Adaptability

LANGUAGES

- English
- Malayalam
